

simptomi epileptičnog napada

gledanje u „prazno“

dodirivanje

lutanje

besmislen govor

drhtanje

žvakanje

pružanje pomoći tijekom napada

**ukloni naočale,
stavi nešto meko
pod glavu**

okreni osobu na bok

oslobodi dio oko vrata

mjeri trajanje napada

ne stavljaš ništa u usta

ne drži osobu

**oslobodi prostor
oko osobe od
drugih ljudi**

**pričekaj dok napadaj
ne završi**

**kada se osoba
osvijesti
ponudi pomoć**

Obavezno zamoli za pomoć odraslu osobu!

Ukoliko nema nikoga u blizini nazovi 112!
